FROM: Scientific Division, IEG

ATTN:

SUBJECT: Sixteenth ABC Aircraft Production Conference (U)

1. is the delegate.

2. The delegate is to sit at the table -- as a delegate -- his role is to answer questions which may be asked pertaining to photographic coverage and information from photography on the subjects raised. Both we and the principals at the conference understand that our input is limited to photography.

3. We may be asked for briefing-aid support in the event that current missions reveal anything that might be of interest to the conference. This would be requested by the Chairman of the Conference, of DIAAP-7.

4. To our knowledge Nick will be the only PI delegate but believe that other, IAS and FTD, PI's will be on hand as observers.

5. We should like to have several observers at the conference but we will have to clear this with who has told us that space is limited.
